3

### Data and Business Intelligence

- Interactive Dashboards
- Data Warehouse Upgrade
- Data Analysis and Decision Support Systems
- Data Encryption

## Digital Integration

The REDF worked on providing advanced digital solutions that create a qualitative leap in operational efficiency through a unified Gateway. This integrated platform brings together advanced tools for control, development, and performance measurement.

## Integration with External Entities

The REDF operates within an extensive network of partners, including government and semigovernment entities, financing and real estate bodies, as well as private sector banks. Integration with these partners is transformed into a single operational ecosystem serving the goal of housing empowerment from multiple angles.

## Government / Semi Government Entities
